YASHWANTH BYALLA

yashwanthbyalla95@gmail.com | +91 8919346754 | https://www.linkedin.com/in/yashwanthbyalla

- Lead Developer with 9+ years of experience at Epsilon, specializing in building scalable, high-performance web applications and leading cross-functional engineering teams.
- Expertise in Angular (v4+), Node.js, TypeScript, Tailwind CSS and modern CI/CD pipelines, applying secure-by-design development practices across full product lifecycles.
- Strong technical leader experienced in performance optimization, system upgrades and delivering end-to-end enterprise solutions.
- Active contributor to the developer ecosystem through open-source projects, including VS Code extensions, npm libraries and other developer tools.

Work Experience

Lead Developer | Epsilon | Aug 2021 - Present

- Architected and implemented frontend features across multiple enterprise applications using Angular, Tailwind CSS, HTML5 and CSS3.
- Led architecture design and end-to-end development of Angular and Node.js applications within an Nx workspace, improving scalability, maintainability and performance.
- Led Angular framework and dependency upgrades across applications, improving performance and reducing bundle sizes.
- Designed and implemented secure file encryption workflows using GPG, including documentation and developer training.
- Identified and resolved security vulnerabilities reported by Veracode (SAST/DAST), strengthening application security compliance.
- Established an Architecture Decision Record (ADR) process to document key architectural decisions, improving developer onboarding and cross-team knowledge sharing.
- Led development of multiple brand modules within enterprise platforms, ensuring consistent performance and on-time delivery.
- Implemented analytics tagging using Google Tag Manager (GTM) and Adobe Tag Manager to improve user behavior tracking.
- Implemented responsive UI design to ensure consistent user experience across desktop and mobile devices.

Technologies Used: Angular, Node.js, Nx Workspace, TypeScript, Tailwind CSS, Bootstrap, Angular Material, HTML5, CSS3, SQL, PGP File Encryption, Veracode (SAST/DAST), Google Tag Manager (GTM), Adobe Tag Manager.

Awards & Recognition

- Three-time nominee for the “Magnitude Award” recognizing high-quality feature delivery and successful project launches.
- Recipient of multiple organizational awards recognizing leadership, innovation and performance optimization during Angular, Tailwind and Nx Workspace platform modernization initiatives.

Professional 1 Software Engineer | DXC Technology | May 2020 - Aug 2021

- Developed frontend features using Angular 8, TypeScript, HTML5 and CSS3, translating business requirements into responsive user interfaces.
- Implemented responsive UI designs to deliver consistent user experiences across desktop and mobile devices.

Technologies Used: Angular 8, Bootstrap, TypeScript, Angular Material, HTML5, CSS3.

Senior Software Engineer | Mindtree | Sep 2019 - May 2020

- Developed frontend components using Angular 8, TypeScript, HTML5 and CSS3 to deliver responsive enterprise web interfaces.
- Developed Node.js service layer components to support API communication and improve backend data processing.
- Implemented responsive UI layouts to ensure consistent user experience across desktop and mobile devices.

Technologies Used: Angular 8, Node.js, TypeScript, Angular Material, Bootstrap, HTML5, CSS3.

Awards & Recognition

- Received “Hats Off” and “A-Team” awards for technical excellence, adaptability and contributions across multiple project initiatives.

System Engineer | Tata Consultancy Services | Jun 2016 - Sep 2019

- Developed frontend components using Angular (v4-v7), TypeScript, HTML5 and CSS3 to build responsive enterprise web interfaces.
- Mentored and trained new engineers on Angular, HTML5, CSS3 and Bootstrap, creating recorded training materials to support team onboarding.

Technologies Used: Angular (v4-v7), TypeScript, HTML5, CSS3, Bootstrap, Angular Material, Kendo UI for Angular, JavaScript, React, ASP.NET MVC.

Awards & Recognition

- Received multiple awards including “Star of the Month”, “On the Spot” and “Best Team”, along with client recognition from the Boeing IT Project Manager for successful project delivery and go-live execution.

Technical Skills

Frontend
Angular, Tailwind CSS, Angular Material, Bootstrap, HTML5, CSS3, JavaScript

Backend & Database
Node.js, SQL

DevOps & CI/CD
Azure DevOps (CI/CD Pipelines), Veracode (SAST/DAST), Secure Coding Practices

Tag Management
Google Tag Manager (GTM), Adobe Tag Manager

Security & Encryption
PGP File Encryption

Mobile & Hybrid App Development
Apache Cordova, Android SDK, IoT

Plugin & Extension Development
Visual Studio Code Extension Development, Chrome Extension Development, Chrome Theme Development

Game Development
2D Mobile Game Development, Game Logic Development, UI Design

Technical Projects & Contributions

NPM Libraries

- Developed SEAL (Scroll Effect Animation Library) - JavaScript library for creating interactive scroll-based animations in web applications.
- Developed upgrade-buddy - Node.js CLI utility for managing and upgrading project dependencies.
- Developed structify-project - Command-line tool for visualizing and exporting project directory structures.
- Developed branchname-validator - Git utility for enforcing standardized branch naming conventions.
- Developing js-handykit - JavaScript utility toolkit providing reusable helper functions (in progress).

VS Code Extensions

- Developed Misty Blue - VS Code theme extension providing a clean blue-toned developer interface.
- Developed Snippet Sparks - VS Code extension for managing and inserting reusable code snippets.
- Developed Script Whiz - CLI-based VS Code extension providing quick access to developer utilities.
- Developed Sync Buddy - VS Code extension for synchronizing workspace configurations and project settings.
- Developed ngBoostY - VS Code extension providing productivity utilities for Angular development.
- Developed Log Master - VS Code extension for managing and analyzing debugging logs during development.
- Developed Branch Name Validator - VS Code extension for validating Git branch naming conventions.

Snapchat Lenses

- FunkyFacial Fiasco - 2.1M+ views
- TimeTale Insight
- Charm Magic Studio

Mobile Games

- Developed Neon Time-Loop Runner - Mobile arcade runner game featuring time-loop based gameplay mechanics.
- Developed Tricky Name Riddles - Mobile puzzle game focused on solving creative word and name-based riddles.
- Developed Bubble Blaster - Arcade-style mobile game involving bubble shooting and target elimination challenges.
- Developed Asteroid Exploder - Space-themed mobile arcade game centered on asteroid destruction mechanics.
- Developed Mind Game - Match the Pair - Memory-based mobile puzzle game involving pair matching challenges.

Chrome Themes

- Traverse Theme
- Whispers of the Lakeshore

Technical Writing

- Published technical articles on the Epsilon Engineering Blog.

Research Publications

- Editing Captured Key Framed Animation Based on Motion Warping. International Conference on Computer Engineering (ICCECE), 2014.
- Security for Java Applets. International Journal of Research in Information Technology and Computer Communications (IJRITCC), 2014.
- Click the Balls. International Journal of Innovative Science, Engineering & Technology (IJISET), 2014.
- Rapid Ball. International Journal of Innovative Engineering & Technology (IJIET), 2015.

Certifications

Cisco Networking Academy

- JavaScript Essentials
- Introduction to Cybersecurity

Microsoft

- Fundamentals of UI/UX Design

IBM

- Penetration Testing, Threat Hunting and Cryptography
- Web Development Fundamentals
- Agile Explorer
- Project Management Fundamentals
- Artificial Intelligence Fundamentals

Google

- Agile Project Management
- Foundations of User Experience (UX) Design
- Build Dynamic User Interfaces (UI) for Websites
- Mobile UX
- Google Analytics

New Relic

- New Relic Verified Foundation (NVF)

CertiProf

- Scrum Foundation Professional Certification (SFPC)

Project Management Institute (PMI)

- The Basics of Scrum
